ELK CREEK, INTER-CANYON, AND NORTH FORK FPDs CONSOLIDATION EFFORTS DIRECT COST TO TAXPAYERS

EXECUTIVE SUMMARY

INTRODUCTION: In 2021 Fire Chiefs Ware, Shirlaw, and Rogers of the [Elk Creek](#), [Inter-Canyon](#), and [North Fork](#) Fire Protection Districts (FPDs) began a campaign advocating the consolidation/merger of the three fire districts, additionally promoting an increase in the property tax mill levy to a common 16 mills.

After the results of the ballot election last November, members of the community have posed the question to the Elk Creek FPD Board of Directors, *"What resources—in terms of taxpayer dollars as well as fire district member time—have the Elk Creek, Inter-Canyon, and North Fork FPDs devoted to the 'Consolidation Effort' in 2021, 2022, and 2023?"*¹ Table I summarizes that the total taxpayer dollars spent across the three fire districts for the consolidation effort is estimated to be ~\$343,000.

TABLE I: Summary of Consolidation Effort Study/Campaign/Ballot Election Costs.

SUMMARY OF CONSOLIDATION EFFORT COSTS TO TAXPAYERS	COST
Consolidation Effort Study [2021]	\$70,000.00
Consolidation Effort Campaign [2022-2023]	\$198,000.00
Consolidation Effort Ballot Election [2023]	\$75,000.00
Consolidation Effort Estimated Direct Cost to Taxpayers =	~\$343,000.00

¹ After repeatedly asking fire district leadership for relevant information that would help answer this question, this author was forced to submit 26 CORA Requests (Colorado Open Records Act) across the three fire districts in an effort to obtain the public records that would help shed light on, at a minimum, the taxpayer dollars spent by the three fire districts in their Consolidation Effort.

SUMMARY OF ANALYSIS: Based on the information received from the 26 CORA Requests submitted across three fire districts, Table I above summarizes that the three fire districts spent an estimated ~\$343,000 during 2021, 2022, and 2023 in a focused effort to convince voters to consolidate/merge their substantially disparate level emergency service operations including the following:

Cooperative Services Feasibility Study = ~\$70,000

- *Cooperative Services Feasibility Study* conducted by consultant AP Triton in 2021 = ~\$41,665
- Fire district personnel participation in the study = ~\$25,000
- Legal fees = ~\$2,500²

Consolidation Effort Campaign = ~\$198,000

- Marketing campaign implemented by consultant Turn Corps³ which included a push-poll⁴ style "community survey" conducted by polling firm Magellan Strategies = ~\$123,232
- Fire district leadership participation = ~\$56,250
- Legal fees = ~\$18,230

Consolidation Effort Ballot Elections = ~\$75,000

- Elk Creek, Inter-Canyon, & North Fork FPDs Designation Election Official = ~\$28,000
- Jefferson, Park, & Douglas County election charges = ~\$34,000
- Legal fees = ~\$1,000
- State of Colorado ballot election subsidy = ~\$12,000

SUMMARY AND FUTURE DIRECTION: The present analysis attempts to answer questions around how much the failed consolidation effort cost the taxpayers and thus estimate how much future Consolidation Ballot Issue would cost. As part of the Consolidation Study, Campaign, and Ballot

² During 2021, Elk Creek, Inter-Canyon, North Fork, and Indian Hills FPDs started a joint consolidation effort; however, in 2022 Indian Hills FPD dropped out of consideration due to differences in long-term vision.

³ Turn Corps has recently been renamed the Public Alignment Communication but their business model has not changed appreciably.

⁴ Push-polling is a well known form of political campaigning in which, "...a person or organization attempts to manipulate or alter prospective voters' views under the guise of conducting an opinion poll." For more details about push-polling, please visit the following webpage: [push-polling](#)

-ESTIMATED-

Election Effort, a Pre-consolidation Intergovernmental Agreement that was signed by the three fire districts remains in effect which allows additional consolidation attempts with approval of the boards.

As shown in Table I above, the total direct cost in taxpayer dollars spent across the fire districts during the consolidation effort is estimated to be ~\$343,000, considerably more than the purchase price of a new, fully equipped ambulance. Moreover, when the lack of proper focus of the fire district leadership as well as the same lack of focus of the firefighter/EMT ranks are considered, the total cost during this period to our mountain community is incalculable. That is why it is crucially important that Elk Creek FPD leadership implement a community-oriented communication campaign that will return transparency regarding District policy-making, financial management, and operating procedures to the people.

THINGS WE DO NOT KNOW:

- a. The entity that owns, operates, maintains, and is legally responsible for the content present on the "mountainfireresources.com" (now inactive) website.
- b. The hours/materials that paid and volunteer staff provided during 2022-2023 in support of the pro-consolidation campaign conducted by Elk Creek, Inter-Canyon, & North Fork FPDs.

CONCLUSION: In 2021, 2022, and 2023 the fire districts spent ~\$343,000 on consolidation efforts that were an unwise use of taxpayer dollars and scarce fire district resources. That is why it is crucially important that Elk Creek FPD leadership focus on the core mission of the District as set forth in Colorado Law Title 32 Special Districts, that is, fire protection, rescue, and emergency medical services. This can only be accomplished at the direction of fire district leadership through a community-oriented communication campaign focused a professionally conducted Needs Assessment⁷ that can lead the community to a common vision for the critical emergency services that only Elk Creek FPD is positioned to provide. Such an effort requires that transparency with respect policy-making, financial management, and operating procedures of the District be returned to the people.
